

the grant under which he/she is supported is eligible for a special international study or thesis/dissertation research travel allowance. Before the international study or thesis/dissertation research travel may commence, a Fellow must have completed one academic year of full-time study, as defined by the institution, under the fellowship appointment and arrangements must have been formalized for the Fellow to study and/or conduct research in the foreign location(s).

§ 3402.6 Fellowship appointments.

(a)(1) Fellows must be identified and fellowships must be awarded within 15 months of the effective date of a grant. Institutions failing to meet this deadline will be required to refund monies associated with any unawarded fellowship(s). Fellowship appointments may be held only by persons who enroll and pursue full-time study in a graduate degree program in the national need area and at the degree level supported by the grant.

(2) In addition, fellows:

(i) must be newly recruited;

(ii) must not have been enrolled previously in the academic program at the same degree level;

(iii) must be citizens of nationals of the United States as determined in accordance with Federal law; and

(iv) must have strong interest, as judged by the institution, in pursuing a degree in a targeted national need area and in preparing for a career as a food or agricultural scientist or professional.

(3) It will be the responsibility of the grantee institution to award fellowships to students of superior academic ability.

(4) A doctoral Fellow who maintains satisfactory progress in his or her course of study is eligible for support for a maximum of 36 months within a 45-month period. Master's level Fellows, maintaining satisfactory progress, are eligible for support for a maximum of 24 months during a 33-month period. However, it is the intent of this program that Fellows pursue full-time uninterrupted study or thesis/dissertation research, including time spent pursuing USDA-funded special international study or thesis/disserta-

tion research activities. For Fellows requiring additional time to complete a degree, it is expected that the institution will endeavor to continue supporting individuals originally appointed to fellowships through such other institutional means as teaching assistantships and research assistantships. For Fellows who complete the program of study early (less than 24 hours for Master's degree or 36 months for doctoral degree), the institution must refund any unexpended monies to the granting agency.

(b) Within the framework of the regulations in this part, all decisions with respect to the appointment of Fellows will be made by the institution. However, institutions are urged to take maximum advantage of opportunities for awarding fellowships to members of underrepresented groups at the graduate level in the food and agricultural sciences, particularly minorities and women. Throughout a Fellow's tenure, the institution should satisfy itself that the Fellow is making satisfactory academic progress, and carrying out, or planning to carry out, national needs related research. If an institution finds it necessary to terminate support of a Fellow for insufficient academic progress or by decision on the part of the Fellow, the Fellow becomes ineligible for future assistance under the program. If a Fellow finds it necessary to interrupt his or her program of study because of health, personal reasons, outside employment, or acceptance of an assistantship, the institution must reserve the funds for the purpose of allowing the Fellow to resume funded study any time within a 9-month period. However, a Fellow who finds it necessary to interrupt his or her program of study more than one time cannot exceed a total of 9 months' cumulative leave status without forfeiting eligibility. For fellowships terminated because of insufficient academic progress, a decision on the part of the Fellow, or reserved due to an interrupted program of study but not resumed within the required time period, unexpended monies must be refunded. Institutions may not use unexpended monies associated with a terminated fellowship to recruit and support a "replacement" Fellow.

§ 3402.7

(c) Only Fellows enrolled in Master's programs of study may be supported under a Master's fellowship grant. Only Fellows enrolled in doctoral programs of study may be supported under a doctoral fellowship grant.

§ 3402.7 Fellowship activities.

A Fellow must be enrolled as a full-time graduate student, as defined by the institution, at all times during the tenure of the fellowship in the national need area and at the degree level supported by the grant. This includes the time used for special international study or thesis/dissertation research if the international travel is funded through a special international study or thesis/dissertation research travel allowance under this grant program. However, the normal requirement of formal registration during part of this tenure may be waived if permitted by the policy of the fellowship institution, provided that the fellow is making satisfactory progress toward degree completion and remains engaged in appropriate full-time fellowship activities such as thesis/dissertation research. Fellows in academic institutions are not entitled to vacations as such. They are entitled to the short normal student holidays observed by the institution. The time between academic semesters or quarters is to be utilized as an active part of the grant period. During the period of support, a Fellow may not accept employment by the institution or any other agency. However, a grant supporting research costs of the Fellow is acceptable, exclusive of salary or wages and fringe benefits for the Fellow.

§ 3402.8 Financial provisions.

The basis fellowship stipend, cost-of-education institutional allowance, and special international study or thesis/dissertation research travel allowance that may be paid from grant funds will be determined by HEP contingent upon appropriations. The amount of the stipend, cost-of-education institution allowance, and special international study or thesis/dissertation research travel allowance will be cited in the program announcement in the FEDERAL REGISTER. An institution may elect to apply the cost-of-education institu-

7 CFR Ch. XXXIV (1-1-00 Edition)

tional allowance to a Fellow's tuition and fees; however, such is not required. The allowance also may be used by an institution to defray other program expenses (e.g., recruitment, travel, publications, or salaries of project personnel). Tuition and fees are the responsibility of the Fellow unless an institution elects to use its cost-of-education institutional allowance for this purpose or elects to pay such costs out of other non-USDA monies. No dependency allowances are provided for Fellows. Stipend payments and special international study or thesis/dissertation research travel allowances will be made to Fellows by the institution, according to standard institutional procedures for fellowships and assistantships.

Subpart C—Preparation of a Proposal

§ 3402.9 Application package.

An application package will be made available to any potential grant applicant upon request. This package will include all necessary forms and instructions to apply for a grant under this program. The package also includes the regulatory provisions applicable to the program.

§ 3402.10 Proposal cover page.

The Proposal Cover Page, Form CSRS 701, must be completed in its entirety including all authorizing signatures. One copy of each grant application must contain the original pen-and-ink signature of:

- (a) The Project Director(s);
- (b) The Authorized Certifying Representative for the college or equivalent administrative unit; and
- (c) The Authorized Certifying Representative for the institution.

§ 3402.11 National need summary.

Using the National Need Summary, Form CSRS-702, applicants must summarize the proposed graduate program of study and the academic and research strengths of the institution in the national need area for which funding is requested. To the extent possible, applicants should emphasize the uniqueness of the proposed graduate program
